

## A Navy Corpsman

I don't think that many of our peer fully understand that a young man(or woman) three years out of high school is responsible for making sure that 5 people, younger and less "experienced" than he/she is, are ready, willing and able to provide medical support, save lives, and insure the health of over 100 men going into harms way.

Senior Corpsman...so young..so ready... a hero to his Marines and mentor to his "junior" Corpsmen

The Marines do have a few good men.....NAVY CORPSMEN

Thomas Powell
